My foods to choose

The foods you choose are important to help you feel your best. Use this list of 100+ great food choices as a quick reference guide and shopping list. Depending on your dialysis treatment and overall health, your potassium needs will vary. It’s important to talk to your dietitian to learn more about good food choices and how you can eat the foods you love.

Protein:
*Serving size: ½ cup or 3-5 ounces, cooked*
- Beans
- Beef
- Chicken
- Edamame
- Eggs (whole or egg whites)
- Fish
- Lamb
- Lentils
- Pork
- Tofu
- Turkey
- Veal
- Wild game

*All-natural, fresh meat is best. Low-sodium, frozen or canned meats (rinsed) are also acceptable. Limit cured & deli meats. Beans, edamame & lentils are higher in potassium.*

*Serving size: 1 slice, 1 piece or ½ cup*
- Bagel (half)
- Bread loaf
- Cereal
- Corn tortilla
- Couscous
- English muffin (half)
- Old-fashioned or steel-cut oatmeal
- Pasta
- Pita (half)
- Quinoa
- Rice
- Rice cakes
- Slow-cook cream of wheat
- Slow-cook grits

Fruits:
*Serving size: 1 small piece or ½ cup*
- Apple
- Blueberries
- Cherries
- Dried fruits (apples, blueberries, cherries, coconut, cranberries)
- Grapes
- Lychee
- Pear
- Persimmon
- Pineapple
- Plum
- Raspberries
- Strawberries
- Tangerine
- Watermelon

*Choose fresh, canned or frozen fruits. If dried, only ¼ cup.*

Foods listed are based on USDA nutrient database averages. For additional details, talk with your dietitian.
